Eligibility Criteria

- B.E./B.Tech & M.E./M.Tech candidates from all branches, along with M.Sc. Computer Science & MCA.
- Candidates should not have any active backlog at the time of the recruitment process and joining.
- A cumulative academic gap of up to 2 years is permitted across 10th, 12th, and Graduation.
- Candidates must complete their degree within the stipulated duration of the academic program.

Steps of Registration

Capgemini Application Process via Superset

1. Open the Capgemini job profile on Superset.
2. Click on the Apply button.
3. The application form will open.
4. Fill in all the required personal and educational details.
5. Accept the Privacy Policy and Terms & Conditions.
6. Proceed with Aadhaar verification.
7. You will be redirected to DigiLocker for verification.
8. Give the required consent on DigiLocker so that your details/documents can be validated.
9. Once the verification is completed, close the DigiLocker/verification page and return to Superset.
10. Go back to the Capgemini job profile.
11. Click the Apply button again.
12. Complete the final application submission.
13. Finally, check My Applications on Superset to confirm that your application has been submitted.

Salary Break-up / Additional Compensation

- spark_<init> – ₹4.25 LPA
- dev_<commit> – ₹5.75 LPA
- dev_<commit> – ₹7.50 LPA
- alpha_<stack> – ₹11 LPA (₹10 LPA + ₹1 Lakh One-Time Bonus)

Skills Required (suggested for the technical roles)

- **Programming fundamentals:** at least one language (Java, Python, C or C++), object-oriented concepts, basic data structures and algorithms.
- **Core CS & web basics:** DBMS and SQL, operating systems, computer networks, and HTML / CSS / JavaScript.
- **Problem solving:** logical reasoning, quantitative and verbal aptitude, ability to debug and think through problems step by step.
- **Soft skills:** communication, teamwork, and willingness to keep learning new tools and technologies.
- **Higher pay tiers:** the ₹7.50 LPA and ₹11 LPA tiers typically expect stronger coding and problem-solving skills.

The original JD does not list skills. These are general skills typically expected for such roles and are not part of the official JD.
