Stripe – Software Engineer, New Grad

Bengaluru, India | Degree by summer 2027

Role	Software Engineer, New Grad
Location	Bengaluru, India (fully in-office)
Pay	Not stated in the listing I found
Last Date	Not stated. Apply early.

Eligibility

- Bachelor's or Master's degree in computer science or a directly related field, obtained by summer 2027 (or equivalent work experience).
- No more than 18 months of professional experience, not counting internships.
- Some programming experience, through side projects or classwork.

What the Role Involves

- Work on cross-functional projects alongside other engineers.
- Give feedback in code reviews and help keep systems scalable and reliable.

How to Apply

https://stripe.com/careers/listing/software-engineer-new-grad/8130930

Skills Required (suggested)

- Programming fundamentals through projects or coursework (from listing).
- Data structures and algorithms; one language such as Python, Java, Go or Ruby.
- Backend basics: APIs, databases and how web services work.
- Collaboration: working in multi-person coding projects and learning unfamiliar systems quickly.
- Clear communication in code reviews and design discussions.

Items marked (from listing) come from the job postings found online. The other items are general skills typically expected for this kind of role and are not part of the official posting.

Compiled on 1 November 2026 from job portals and official pages. Details can change, so verify on the official page before applying.
