TEJAS NETWORKS

CAMPUS REGISTRATION · SOFTWARE ENGINEER (INTERN)

Job Overview

Job Title: Software Engineer (Intern)
Location: Bangalore

Eligibility Criteria

B.Tech (CSE/ECE) degree with 75% and above throughout (75% in 10th, 12th/Diploma & BTech).

Stipend Details

B.Tech: Rs. 30,000 per month

Important Note

This is a 4–6 months on-site internship. There are strong chances of conversion into a Pre-Placement Offer (PPO) based on performance; however, PPO conversion is not guaranteed. Only interested students should apply.

What You Will Work On

You will be a key member of the team developing next-generation telecom networking products.

These products support GPON / TDM / OTN / Packet / Wireless / Hybrid cross-connects ranging from gigabits to multi-terabits and high-speed interfaces.

You will work across the entire product life-cycle and your code will go into live products virtually from day 1.

Mandatory Skills

- You have a passion for coding & are great at problem-solving.
- You are proficient in either C/C++ or other scripting languages like Perl.
- You have a strong understanding of computing concepts including data structures, operating systems & Algorithms.
- You are a self-starter and have ability to think deeply.

Desired Skills

- Ideally you have been exposed to networking protocols like TCP/IP and have some exposure to embedded systems (Linux).

Application Details

Application deadline: Before 9:00 AM tomorrow, 23rd September 2026.
