Education

Lakshmi Narain College of Technology, Bhopal 2023 – 2027
Bachelor of Technology in Artificial Intelligence and Machine Learning *CGPA: 8.01*

Vatsalya Senior Secondary School, Vidisha 2021 – 2022
High School (XII) *75%*

Trinity Convent Secondary School, Vidisha 2019 – 2020
Matriculation (X) *76.8%*

Technical Skills

Languages: Java, JavaScript, Python
Frameworks & Libraries: React.js, Node.js, Express.js, Redux, Tailwind CSS
Databases & ML: MongoDB, FAISS, NumPy, Pandas, Scikit-learn, Hugging Face Transformers
Tools & Cloud: Git, GCP, Vercel, JWT, OAuth, Gemini API

Projects

MediSync | *Full-Stack Doctor Appointment and Healthcare Management App* Live

- Built a MERN-based doctor appointment and healthcare management system.
- Implemented JWT authentication for Patient, Doctor, and Admin roles.
- Developed an appointment booking system with slot availability checks.
- Integrated Razorpay payments and Cloudinary image uploads.

Text Summarizer | *NLP-Powered Abstractive Text Summarization System* GitHub

- Built an AI text summarizer using the PEGASUS model and Hugging Face Transformers.
- Created an ML pipeline for data processing, training, and evaluation.
- Used GCP for dataset storage and automated web scraping.
- Developed a Streamlit web app for real-time text summarization.

ReadingTracker | *Personalized Book Tracking Web App* Live

- Built a React.js app with Redux for state management to track books and reading streaks.
- Used a custom localStorage hook to persist data without a backend.
- Implemented light/dark mode and a dashboard showing books completed and pages read.
- Added ability to add books and react to them with emojis; deployed on Vercel.

Achievements

Amazon ML Summer School 2026: Selected among the **Top 3,000 students across India** for Amazon's prestigious ML Summer School, learning Machine Learning concepts from Amazon scientists and industry experts.

Frontend Domination Hackathon (2025): Secured **2nd Place** by developing a **Book Reading Tracker** in 8 hours using React, featuring bookmarking, reading progress tracking, favorites, and interactive UI components.

Certifications

Cisco Networking Academy (NetAcad) June 2026
Python Essentials 1 & Python Essentials 2 (Python, OOP, Problem Solving)

Udemy July 2025
Complete Web Development Bootcamp (HTML, CSS, JavaScript, React, Node.js, MongoDB)

Udemy July 2025
Fundamentals of Java (Core Java, OOP, Collections)
