Priyansh Saxena

Bhopal, Madhya Pradesh | 9755525320 | priyamsaxena.in@gmail.com | LinkedIn | GitHub

SUMMARY

Full stack developer specializing in Java, Spring Boot, and React, with a strong foundation in Data Structures & Algorithms (380+ problems solved on LeetCode and GeeksforGeeks). Built and deployed PeerRank, a production full-stack platform with secure JWT authentication and REST APIs, and SmoothFrame AI, a deep-learning video interpolation system. Comfortable building features end to end, from database schema to deployed UI.

SKILLS

- **Languages:** Java, Python, SQL
- **Backend:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT Authentication
- **Frontend:** React
- **Database:** MySQL
- **AI / ML:** PyTorch, OpenCV, Computer Vision, Frame Interpolation
- **Tools:** Git, GitHub, IntelliJ IDEA, VS Code, Postman, Railway, Vercel

PROJECTS

PeerRank—CommunityReviewPlatform *(Java, Spring Boot, Spring Security, React, Tailwind CSS, JWT, MySQL, Railway, Vercel)*

- Designed and built a full-stack review platform spanning Movies, TV Series, Anime, and Games, with 30+ REST API endpoints across 7 relational database tables.
- Improved API security by preventing sensitive user data from being exposed in API responses.
- Implemented validation and database constraints to ensure data integrity.
- Built a responsive React frontend with live search, category browsing, and trending rankings, tested across 150+ seeded catalog entries.
- Deployed the backend on Railway and frontend on Vercel using environment-based configuration for CORS and application secrets.

Live Demo | GitHub

SmoothFrame AI — AI Video Frame Interpolation *(Python, FastAPI, PyTorch, OpenCV, React, FFmpeg)*

- Built a RIFE-inspired deep learning pipeline to generate intermediate video frames for smoother video playback.
- Developed a FastAPI backend for video upload and processing, integrated with a React interface for end-to-end use.
- Optimized video processing using GPU acceleration and FFmpeg for improved inference performance.

EDUCATION

B.Tech in Artificial Intelligence & DataScience—LNCT Bhopal (RGPV)	2023 – Present	| CGPA: 8.12
Intermediate (Class XII), Bharat Mata Convent Senior Secondary School, Ganj Basoda CBSE	2022 – 2023	| 85.4%
Secondary (Class X), Bharat Mata Convent Senior Secondary School, Ganj Basoda CBSE	2020 – 2021	| 92.2%

ACHIEVEMENTS

- Solved 380+ Data Structures & Algorithms problems on GeeksforGeeks and LeetCode using Java and C++.
- Secured 5th position at CodeBeta 2024 and 8th position at CodeVerse 2025, coding competitions held at LNCT Bhopal.
- Built and deployed a production-ready full-stack application (PeerRank) using Spring Boot, React, Railway, and Vercel.
