Education

Lakshmi Narain College of Technology — Bhopal, MP
B.Tech in Computer Science (AI/ML) , **CGPA: 8.61/10** — Sep 2023 – June 2027

ST. Joseph's Convent Sr. Sec. School — Sagar, MP
Higher Secondary Education (PCM + IT) , **CGPA: 7.24/10** — June 2022– July 2023

ST. Joseph's Convent Sr. Sec. School — Sagar, MP
Secondary Education (Class X) , **CGPA: 9.46/10** — June 2020 – July 2021

Technical Skills

Languages: Java, Python, SQL
Frameworks/Libraries: OpenCV, Matplotlib, Numpy, Streamlit
Frontend : HTML, CSS, JavaScript, Bootstrap
Relevant Courses: OOP, DBMS, Computer Network, Machine Learning, Deep Learning, Artificial Intelligence

Experience

AICTE IDEA LAB Bhopal | AI Intern — March 2026 – May 2026
Artificial Intelligence, Machine Learning — GitHub

- Developed an AI-powered rooftop **solar assessment platform** for deployment feasibility analysis.
- Designed computer vision pipelines for rooftop region extraction and **obstacle-aware** site evaluation.
- Automated solar potential, energy yield, and financial **feasibility estimation** using geospatial data.
- Collaborated on AI-driven solar **recommendation workflows** and deployment analytics.

Projects

SolarIQ | SAM, OpenCV, Streamlit, PVGIS — GitHub

- Implemented **SAM-based rooftop segmentation** to generate **rooftop masks** and identify deployable rooftop regions.
- Built a **three-stage visual analysis pipeline** displaying Rooftop Mask, Obstacle Detection Mask, and Final Usable Area Mask.
- Automated solar **energy** estimation, **financial** forecasting, annual **savings** calculation, and **ROI** payback.
- Designed an **interactive dashboard** with solar insights, feasibility assessment, and **downloadable reports**.

Text-to-Image Generation Workflow | n8n, Stable Diffusion, HTTP APIs, JSON — GitHub

- Created a **workflow automation** solution for generating AI images from natural language prompts.
- Integrated **Stable Diffusion image** generation APIs with automated **request and response handling**.
- Developed webhook-driven architecture for **real-time image generation** and processing.

SplineCraft | HTML, CSS, JavaScript, Spline — GitHub

- Created a **visually rich product showcase** website with real-time **3D** elements and interactive animations.
- Developed a fully responsive interface using modern **frontend development** practices.
- Enhanced user engagement through smooth **transitions**, hover effects, and immersive visual .

Achievements

- Selected as a **Tech Contributor** in **GSSoC 2025 (GirlScript Summer of Code)** for contributing to open-source software projects.
- Secured **Rank 223/ 7,000+ participants** in GFG Institution rank.
- Ranked in the **Top 3%** academically among 200+ students for four consecutive semesters.

Certificates

- Oracle Cloud Infrastructure Certified AI Foundations Associate
- SpringBoard Certified Programming using Java
- SpringBoard Certified Data Structures and Algorithms using Java
