TANIYA PATEL

Software Engineering Undergraduate

Bhopal, Madhya Pradesh | +91 9301425087 | taniyaa2004@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Aspiring Software Engineer with expertise in Java, Spring Boot, MySQL, and REST APIs, passionate about building scalable backend systems and applying AI-driven solutions to real-world challenges.

EDUCATION

Bachelor of Technology — **2023 – 2027**
Computer Science & Engineering
(Internet of Things & Cyber Security including Blockchain Technology)
Lakshmi Narain College of Technology, Bhopal (M.P.) — **CGPA: 8.39**

Class XII (CBSE) — **2021 – 2022**
O.P. Jindal School, Raigarh (C.G.) — **87.2%**

Class X (CBSE) — **2019 – 2020**
O.P. Jindal School, Raigarh (C.G.) — **97.2%**

TECHNICAL SKILLS

Programming Language: Java
Frameworks: Spring Boot | Hibernate
Web Technologies: HTML | CSS | JavaScript | REST APIs
Database: MySQL
Developer Tools: Git | GitHub | Maven
Core Concepts: OOP | Data Structures | SOLID Principles
AI Integrations: Google Gemini API

PROJECTS

Theta_v1

GitHub

E-Commerce Backend Application using Spring Boot
Technologies: Java | Spring Boot | MySQL | REST APIs | Google Gemini API

- Developed a Spring Boot e-commerce backend following a layered architecture with Controller, Service, and Repository components.
- Built RESTful CRUD APIs for product and category management using Spring Data JPA and MySQL.
- Integrated Google Gemini API to generate AI-powered product descriptions, enhancing the admin product management workflow.
- Applied Hibernate, Dependency Injection, and Maven to develop a modular, maintainable, and scalable backend application.

JChess

GitHub | Live Demo

Two-Player Chess Game with MVC-Inspired Architecture
Technologies: Java | HTML | CSS | JavaScript

- Developed a browser-based two-player chess game in Java, implementing complete chess rules including check, checkmate, castling,en passant, and pawn promotion.
- Architected an MVC-inspired application using Object-Oriented Programming principles, leveraging, abstraction, inheritance, polymorphism, and encapsulation for a modular design.
- Designed a robust game engine with piece-specific classes and move validation logic to ensure accurate gameplay and efficient game state management.
- Built a responsive HTML, CSS, and JavaScript interface integrated with Java's built-in HTTP Server and JSON-based communication for seamless user interaction.

ACHIEVEMENTS & EXTRACURRICULAR

- Top 8 Finalist at Prayatna 2.0 National Hackathon, AITR, Indore.
- Top 10 Finalist at Samadhan 2.0 National Hackathon, CDGI, Indore.
- Organized and volunteered at IoT workshops conducted by AICTE IdeaLab, promoting hands-on learning in embedded systems.
- Awarded the Scholar Gown for seven consecutive academic years in recognition of consistent academic excellence.
- Represented the institute as Nodal Chess Player (Girls Category), 2025.

CERTIFICATIONS

- NPTEL – Programming in Java (IIT Kharagpur) – Elite + Silver
- Java Programming (Core Java & Object-Oriented Programming) – Udemy
