Summary

Computer Science undergraduate and Full-Stack Developer experienced in building scalable web applications using **Java, Spring Boot, Python, Django, React, and Next.js**. Strong foundation in **Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks**.

Education

Lakshmi Narain College of Technology — Aug 2023 – Sep 2027
B.Tech in Computer Science; CGPA: 8.00 — Bhopal, MP

M.P. Board — 2022
Higher Secondary (Mathematics) – 85.2% — Madhya Pradesh, India

M.P. Board — 2020
Secondary – 97.0% — Madhya Pradesh, India

Technical Skills

Programming Languages: Java, C/C++, Python, JavaScript, SQL

Frontend: React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3

Backend Frameworks: Spring Boot, Spring Security, Django

Backend Technologies: RESTful APIs, JWT Authentication

Databases: MySQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming

Soft Skills

Problem Solving, Communication, Teamwork, Adaptability, Critical Thinking, Quick Learning

Projects

CarGo Rentals `[GitHub]` | *Spring Boot, Next.js, MySQL, Spring Security, JWT*

- Developed a full-stack Car Rental Application using **Spring Boot**, **Next.js**, and **MySQL** with RESTful APIs based on a layered architecture (**Controller, Service, Repository**) and DTOs.
- Implemented secure authentication and authorization using **Spring Security** and **JWT** to protect REST APIs and user access.
- Improved application reliability through **Global Exception Handling** with custom exceptions, ensuring consistent API responses and maintainable code.

Foody – Online Food Ordering Website `[GitHub]` | *Django, SQLite, HTMX, Google Authentication, Django Channels*

- Built a full-stack food ordering platform using **Django**, **HTMX**, and **SQLite** with a responsive server-driven UI and dynamic cart updates without page reloads.
- Implemented **Google Authentication** and developed separate **Restaurant Dashboard** and **User Interface** modules for menu and order management.
- Integrated **Django Channels** to provide real-time order updates, enabling restaurants to instantly receive and process customer orders.

Achievements

- Qualified **GATE 2026 (Computer Science)**.
- Solved **1300+ coding problems** across LeetCode and competitive programming platforms, strengthening problem-solving skills.
- Winner of the **Inter-College DSA Competition**, securing **1st place** among participants from multiple colleges.
