Projects

FitAI – Adaptive Fitness Intelligence Platform | *MERN Stack, Anthropic Claude API* **March 2026 – April 2026**

- Built a full-stack adaptive fitness platform with 15 REST APIs, JWT auth, and an AI-powered Coach (Anthropic Claude) that streams real-time personalized responses using live user logs and habit data.
- Engineered progressive overload automation, Habit Intelligence scoring, drop-off risk detection, and calorie calculation via Mifflin-St Jeor formula.
- Developed interactive Recharts dashboards to visualize workout progress, body measurements, and fitness trends, improving user engagement.

InterviewAI - AI-Powered Interview Preparation | *MERN Stack, Gemini API* **June 2026 – July 2026**

- Engineered a full-stack AI-powered interview preparation platform that analyzes resumes against job descriptions using the Gemini API to deliver personalized career insights.
- Integrated the Gemini API to generate personalized technical and behavioral interview questions, identify skill gaps, and recommend learning roadmaps based on resume-job matching.
- Implemented an ATS optimized resume optimizer that tailors resumes to match job descriptions, improving ATS compatibility and relevance.
- Integrated PDF resume parsing, RESTful APIs, and a responsive React-based interface to deliver a seamless end-to-end user experience.

Acheivements & Certifications

- **Navkalpana Hackathon – RICR:** Qualified for Final Round of the Navkalpana Hackathon organized by RICR, collaborating with a team to develop innovative technology solutions.
- **Best Innovation Award – AI Manthan, AITR Indore:** Received the Best Innovation Award for presenting an AI-driven solution that demonstrated creativity and practical Problem-Solving.
- **Master Frontend to Backend in 100 Days – CodeWithRandom:** Successfully completed an intensive full-stack web development program covering modern frontend and backend technologies.
- **Data Structures and Algorithms with Java – Coursera:** Completed a comprehensive certification on Java-based Data Structures and Algorithms, covering Problem-Solving techniques and core data structures.
