EDUCATION

Lakshmi Narain College of Technology (LNCT) **2023 – 2027**
B.Tech in Computer Science Engineering — ***CGPA: 8.81/10.0*** *Bhopal, Madhya Pradesh*

City Montessori Higher Secondary School **2022 – 2023**
Class XII (M.P. Board) — ***Percentage: 87%*** *Morena, Madhya Pradesh*

TECHNICAL SKILLS

Languages: Java, JavaScript
Frontend: HTML5, CSS3, React.js, Tailwind CSS
Backend: Spring, SpringBoot, Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO, WebRTC
Databases: MongoDB, MySQL
Developer Tools: Git, GitHub, VS Code, Postman, MongoDB
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

PROJECTS

CodeSync Pro | Live | GitHub **Jun 2026**
Tech Stack: React.js, Node.js, Express.js, Zustand, MongoDB, Socket.IO, WebRTC, Judge0, JWT

- Built a full-stack **MERN** collaborative coding platform enabling real-time multi-user **code synchronization** per room via Socket.IO, with WebRTC audio/video, JWT auth, and live chat.
- Integrated **Monaco Editor** and **Judge0 API** for automated code execution across 3 languages (Java, C++, Python) with custom input and test case support.
- Developed an online problem-solving module with 15+ curated problems organized by difficulty and topic, with automated submission evaluation via REST APIs.

EcoMeet | Live | GitHub **May 2026**
Tech Stack: Node.js, Express.js, MongoDB, Zustand, React.js, Tailwind CSS, WebRTC, Socket.IO, JWT

- Developed a full-stack **language exchange platform** enabling users to connect with native speakers and language learners worldwide for real-time conversational practice.
- Built **live conversational practice rooms** with WebRTC video/audio and Socket.IO-powered real-time text chat, supporting simultaneous voice and text-based language exchange.
- Implemented **language-based matching algorithms**, user profile management, and secure JWT authentication to deliver personalized learning experiences.

MeetHub | Live | GitHub **Oct 2025**
Tech Stack: Node.js, Express.js, MongoDB, React.js, WebRTC, Socket.IO, JWT

- Developed and deployed a scalable real-time **video conferencing platform** supporting 100+ concurrent participants with secure, peer-to-peer meeting rooms using WebRTC, achieving 99.9% uptime.
- Implemented **WebRTC** for peer-to-peer audio/video streaming and Socket.IO for real-time signaling, reducing server load by 35% and achieving latency under 200ms in live sessions.
- Designed a responsive, low-latency UI with **React.js** and Tailwind CSS, supporting screen sharing, mute/video controls, and dynamic room management.

ACHIEVEMENTS

- Solved **680+ algorithmic problems** across LeetCode (580+) and GeeksforGeeks (100+), covering Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, and Dynamic Programming.
- Achieved a **LeetCode Contest Rating of 1746**, ranking in the **top 10%** of competitive programmers on the platform.
- Secured **1st place** in **CodeVita** competition, organized by the LNCT Coding Community.

CERTIFICATIONS

- HTML, CSS, Java & JavaScript: Full Stack Programming - Udemy
- Data Structures & Backend with Java - Board Infinity
