Education

- **Mithi Gobindram Public School** — Bhopal, Madhya Pradesh
  Class X CBSE Board; Score: 93.2 — *2019 – 2020*
- **Mithi Gobindram Public School** — Bhopal, Madhya Pradesh
  Class XII CBSE Board; Score: 82.2 — *2021 – 2022*
- **Lakhmi Narain Colloge of Technology** — Bhopal, Madhya Pradesh
  B.Tech in CSE(IoT Cyber Security including Blockchain); Current CGPA: 7.82 — *2023 – 2027*

Projects

- **DarshanEase** — LNCT
  Temple Darshan Ticket Booking System Software
  - **Dynamic E-Ticketing Dashboard**: Engineered a responsive user portal for booking and managing temple Darshan slots, featuring real-time status badges and instant booking cancellations without requiring page reloads.
  - **Role-Based Access Control (RBAC)**: Implemented secure authorization distinguishing devotees from administrators. Designed an exclusive admin overlay UI for seamless CRUD operations (Create, Read, Update, Delete) on temple listings directly from the frontend.
  - **RESTful API Integration & State Management**: Integrated asynchronous API calls to a Node.js/Express backend using Axios. Utilized React Context API and modern hooks for efficient global state management and seamless data synchronization.
- **IoT aided Smart Parking System** — LNCT
  Minor Project
  - **Real-Time Status Display**: Show current slot availability on LCD/LED/Web dashboard. Update status automatically as vehicles move.
  - **Artificial Intelligence-Based Predictive Automation**: The present system does not include AI-based automatic decision-making or behavioral learning mechanisms.
- **Rasoi Cooking Classes** — Bhopal
  Business Website for Culinary Classes
  - **Business Description**: Simulating class environment on the website to aid students and learners to learn about the classes. The website also has a catalog of courses that a student can choose from.
  - **Student Application**: Integrating a form for students so they can inquire about the business.

Certifications

- **Udemy**: Full Stack Web Development
- **Cisco**: Network Technician Career Path
- **Cisco**: Introduction to Modern AI
- **Cisco**: Introduction to Data Science

Programming Skills

- **Backend**: Java, Spring, Spring Boot, Express.js, Node.js
- **Frontend**: React.js, HTML, CSS, JavaScript
- **Databases** : MongoDB, SQL
- **API & Architecture**: REST APIs, Microservices
- **Cloud and DevOps**: AWS, Docker
