AKANKSHA SAHU

Bhopal , India

+91 6268348506 akankshasahu2604@gmail.com Akanksha-Sahu26

ABOUT ME

Detail-oriented Computer Science undergraduate with expertise in Java backend development and the Spring ecosystem. Experienced in building secure, scalable REST APIs using Spring Boot, Spring Security, Hibernate, and MySQL. Passionate about designing real-world backend systems and integrating AI capabilities using Spring AI.

EDUCATION

Lakshmi Narayan College of Technology, Bhopal BTech-Computer Science (2023-2027)	CGPA : 8.50
Carmel Convent Girls Sr Sec School, Bhopal Class XII (CBSE) 2022-23	Percentage: 93.8
Carmel Convent Girls Sr Sec School, Bhopal Class X (CBSE) 2020-21	Percentage: 96

PROJECTS

CipherVault – Secure Document Management Platform |Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL

GitHub: https://github.com/Akanksha-Sahu26/CipherVault

- Developed a secure document management platform with encrypted file storage, document upload/download functionality, and temporary shareable links with expiration support.
- Implemented JWT-based authentication, role-based access control (USER/ADMIN), account locking, automatic unlock workflows, and administrative user management.
- Built a centralized audit logging system to track authentication events, document operations, and security-sensitive activities with filtering and pagination support.
- · Developed layered backend architecture using DTOs, service-repository pattern, global exception handling, and Spring Data JPA for maintainable and scalable applications.

FinTrack – AI-Enabled Expense Tracker | Java, Spring Boot, Spring Data JPA, MySQL, Spring AI,Spring Web, Lombok

GitHub: https://github.com/Akanksha-Sahu26/FinTrack

- Built an AI-powered expense tracker with category-wise analytics, budget monitoring, and MySQL-based persistence.
- Integrated Spring AI and Ollama LLM to generate financial insights and personalized spending recommendations.
- Implemented layered architecture, DTO mapping, exception handling, and RESTful APIs for scalable backend development.

TECHNICAL SKILLS

Programming Languages: Java, C, C++
Frameworks & Technologies: Spring Core, Spring Boot, Spring Security, Spring MVC, Spring Data JPA, Hibernate, Spring AI
API Development: RESTful APIs
AI & LLM Integration: Retrieval-Augmented Generation (RAG), Tool Calling, Multimodal Applications
Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving
Tools: Git, GitHub, Maven, Postman, Eclipse IDE, Spring Tool Suite (STS), Visual Studio Code
