Summary

Computer Science undergraduate with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Proficient in Java and JavaScript with hands-on experience in web application development using React.js and Node.js. Quick learner with strong analytical and problem-solving skills, effective communication, and a keen interest in software development and emerging technologies.

Education

Lakshmi Narain College of Technology Sep. 2024 – Jun. 2027 (Expected)
B.Tech in Computer Science and Engineering – CGPA: 8.47/10.0 *Bhopal, MP, India*
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), Computer Networks

New Government Polytechnic Nov. 2021 – May 2024
Diploma in Computer Science and Engineering – CGPA: 8.96/10.0 *Patna, Bihar, India*

Technical Skills

Programming Languages: Java, C, JavaScript
Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit
Backend & Frameworks: Spring Boot, Spring MVC, Spring REST, Spring Data JPA, Hibernate, JDBC, Node.js, Express.js, REST APIs
DevOps & Cloud: Docker, Jenkins, CI/CD, Linux
Developer Tools: Git, GitHub, Postman, Jira
Core Concepts: Data Structures & Algorithms (DSA), OOP, Computer Networks

Projects

DocIntel — Multi-PDF RAG Chatbot | *React, Node.js, LangChain, Google Gemini, Qdrant, Docker* 2026

- Developed a Retrieval-Augmented Generation (RAG) application enabling users to interactively query multiple PDFs simultaneously, streamlining information extraction from large documents.
- Engineered a document processing pipeline with **LangChain** to chunk text and generate vector embeddings, storing them in **Qdrant** to retrieve source-grounded context and minimize LLM hallucinations.
- Containerized the multi-service architecture using **Docker** and **Docker Compose**, ensuring environment consistency and simplifying the local setup and deployment process.

NexMeet — Real-Time Communication Platform | *React, Node.js, Express, MongoDB, Socket.io* 2026

- Collaborated with a peer developer to build a real-time communication platform using the **MERN stack** and **Vite**, facilitating seamless concurrent user interactions.
- Integrated **Socket.io** for bidirectional, event-based communication and implemented **MongoDB** functionality to automatically store and persist meeting details in the database as soon as a session is initiated.

Hackathons

Frontend Domination Hackathon – Top 10 Finalist **May 2025**
Coding Club TIT / Unstop Online

- Built "FitWell", a responsive wellness dashboard using React.js, Chart.js, and modern UI design principles within a 48-hour hackathon.

Certifications

Programming In Java (Elite & Top 5 percent Topper) Jan. 2025 – Apr. 2025
NPTEL Online Certification (IIT Kharagpur) *Online*

- Successfully completed the 12-week course with a consolidated score of 88 percent, earning the Elite badge and ranking in the top 5 percent of certified candidates.

Computer Networks and Internet Protocol (Elite) Jan. 2024 – Apr. 2024
NPTEL Online Certification (IIT Kharagpur) *Online*

- Successfully completed the 12-week course with an Elite badge
