Rishabh Dubey

Bhopal, India | +91 7909547056 | rishabhdubey1472004@gmail.com | LinkedIn | GitHub

Professional Summary

Java Backend Developer with strong expertise in **Spring Boot, Spring Web, Spring Security, Spring Data JPA, Spring Cloud, Hibernate,** and **RESTful APIs**. Proficient in frontend technologies (HTML, CSS, JavaScript) and integrating **Generative AI with Spring AI**. Experienced in **database optimization, multithreading, microservices architecture,** and **full-stack project development** with a focus on clean, maintainable code. Seeking to contribute to innovative software solutions as a Software Engineer.

Skills

Languages: Java, JavaScript, SQL, HTML, CSS
Backend & Frameworks: Spring Boot, Spring Core, Spring Web, Spring WebFlux, Spring Security, Spring Data JPA, Hibernate, Spring Cloud, Jakarta EE, Microservices, gRPC, Eureka Server, API Gateway
Databases: MySQL, PostgreSQL, Redis, CouchDB, PgVector
Generative AI & AI Engineering: Spring AI, Retrieval-Augmented Generation (RAG), Prompt Engineering, Embedding Models, Agentic AI, MCP Servers, AI Workflow Orchestration
Blockchain: Hyperledger Fabric (Java SDK, Chaincode)
Tools & Platforms: Git, GitHub, Docker, Postman, IntelliJ IDEA, VS Code, Spring Tool Suite
Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Cybersecurity

Projects

BloomWay: AI-Powered Application Development Platform [Source Code]

Tech Stack: Spring Boot, Spring AI, PostgreSQL, Vector Database, REST APIs

- Built an AI-driven application development platform enabling users to generate, refine, and manage application components using natural language prompts.
- Integrated Spring AI with vector databases to support semantic search, contextual retrieval, and intelligent response generation using RAG pipelines.
- Designed scalable RESTful APIs with Spring Boot for prompt processing, AI workflows, and project management.

HealthSphere: Blockchain-Based Healthcare Record System [Source Code]

Tech Stack: Spring Boot, Hyperledger Fabric, Spring Security, JWT, CouchDB, Docker, gRPC

- Built a secure healthcare record system using Hyperledger Fabric with Java chaincode for immutable, tamper-proof data storage on a permissioned blockchain.
- Implemented authentication and role-based authorization using Spring Security and JWT, with Fabric MSP identities for peer-level access control.
- Integrated Spring Boot services with Fabric peers via gRPC, ensuring secure and efficient transaction processing and audit trails, and used CouchDB as the state database for rich JSON query support across healthcare records.

Unir: AI-Enhanced Professional Networking Platform [Source Code]

Tech Stack: Spring Boot, Spring Cloud, React, API Gateway, Eureka, Neo4j, PostgreSQL, Microservices

- Built a scalable LinkedIn-style professional networking application using microservices architecture with Spring Boot and Spring Cloud components.
- Leveraged the Neo4j graph database to model professional relationships, enabling efficient connection discovery and AI-driven recommendations.
- Implemented centralized routing and service discovery using Spring Cloud Gateway and Eureka Service Discovery.

Achievements

- LeetCode: (Max Rating: 1800)
- CodeChef: 3-Star Coder (Max Rating: 1631)
- Smart India Hackathon (SIH) – Participated in India's largest national-level hackathon, developed a solution addressing a government problem statement.
- BGI Hackathon (EvGenee) – Built EvGenee, an AI-integrated EV charging station booking platform with real-time slot management and payment integration.
- Java Backend Development with Spring Boot and Microservices **– Udemy, Coursera, Coding Shuttle**
- Networking, Cybersecurity and CCNA **– Cisco Networking Academy**

Education

Lakshmi Narain College of Technology — Bhopal, India
Bachelor of Technology in Computer Science & Engineering — 2023 – 2027 CGPA: 8.73/10.0

Holy Family Convent Sr Sec School — Bhopal, India
Senior Secondary (PCM, CBSE Board) — 2021 – 2022 Percentage: 84.4%
