EDUCATION

Lakshmi Narain College of Technology, Bhopal **2023 - 2027**
B.Tech - Computer Science Engineering - ***CGPA : 8.69*** *Bhopal*

St.John's Sr.Sec School (CBSE) **2022**
10th: 95.46 - 12th: 90.8 *Damoh*

SKILLS

CS Fundamentals: Data Structures & Algorithms, OOPS, DBMS, Operating System
Programming: Java (Fundamentals + DSA Problems Solved *leetcode*), *SQL*
Frontend Development: HTML, CSS, ReactJS
Backend Development: Node.js, Express.js, RESTful APIs
Version Control Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse, Postman
Database: MySQL, MongoDB
Soft Skills: Team Leadership, Project Management, Teamwork, Technical Presentations

PROJECTS

Smart Claims – AI-Driven Damage Detection and Claim Verification Platform | Personal Project

- **Developed a full-stack insurance claim management platform using React.js, Node.js, Express.js, and MongoDB to automate claim submission and verification workflows.**
- Integrated OCR APIs for document data extraction, reducing manual entry.
- Implemented AI-based vehicle damage analysis using OpenCV and Roboflow models to identify damaged areas and generate damage assessment insights.
- Designed a rule-based fraud detection engine to flag duplicate or abnormal claims.
- Developed RESTful APIs for authentication, claim workflows, and fraud analysis; tested with Postman.
- Created an admin dashboard for real-time monitoring, fraud score visualization, and decision support.
- Optimized claim record and AI output management with MongoDB's flexible document model.

Smart School Pickup Monitoring System | Group Project

- **Developed a secure AI-based school pickup verification system integrating real-time licence plate detection.**
- Collaborated on Python-based computer vision services for real-time LPR.
- Developed and implemented responsive staff dashboard using React for live queue monitoring and pickup validation.
- Designed RESTful APIs using Node.js and Express for student records, logging anad authentication.
- Designed MySQL schema for students, guardians, and pickuplogs.

ACHIEVEMENTS AND ACTIVITIES

- Winner - Statathon 2025, organised by Institute Innovation Council, SHGC, Bairagarh
- Qualified GATE 2026 (Graduate Aptitude Test in Engineering)
- 1st Runner-Up - Brainiac 2024, held at LNUniverse, LNCT.
- Participated in national-level hackathons including SIH'25, HackHazards'25, and Cognizant Technoverse'26, demonstrating innovation and teamwork.
- Attended IoT workshops at LNCT IdeaLab, explored Aurduino-based circuits and sensor simulation using Wokwi.

CERTIFICATIONS

- Programming in Java - NPTEL
- SQL Essential Training - Linkdin Learning
- OCI Generative AI Professional - Oracle University
- Associate in IT Foundational Skills(Java)- Infosys Springboard
