ABOUT

Detail-oriented Developer proficient in Java, Spring Boot, and MySQL. Experienced in developing RESTful APIs, implementing robust authentication with JWT, and validating complex software workflows. Adept at leveraging modern development tools like GitHub and Postman to deliver clean, efficient code in collaborative environments.

EDUCATION

Lakshmi Narain College of Technology *2023 – 2027*
B-Tech in Electronics and Communication — 8.46 CGPA

High School Kanhaiyachak *2021 – 2023*
Higher Secondary (12th – PCM)

Sufia Public School *2020 – 2021*
Secondary Education (10th)

SKILLS

Languages: Java, SQL

Backend: Spring Boot, Maven, Spring Security, REST APIs, JPA, JWT

Database: MySQL

Other: DSA, Windows, GitHub, IntelliJ IDEA, Postman

Languages Spoken: Hindi (Native), English (Proficient)

PROJECTS

MindEase (Bundelkhand Hackathon) *Sep 2024*

- Built an AI-empowered mental health platform to assess mental health metrics using AI-driven logical frameworks.
- Implemented personalized recommendation modules for coping strategies and user wellness.

Loan Management System *Mar 2026*

- Developed RESTful APIs for loan application, approval, and tracking using Spring Boot, MySQL, and JWT.
- Implemented authentication/authorization with Spring Security and designed role-based access for Admin/Customer.
- Validated 50+ test cases using Postman to ensure robust execution.

ACHIEVEMENTS & EXPERIENCE

- **Appen (CrowdGen) – AI Assistant:** Enhanced accuracy for Hindi and English AI models through dataset refinement and language learning support.
- Participated in Bundelkhand Hackathon 2024; awarded Runner-up prize in Nukkad Natak.
