Sanskar Vidya April 2019 – March 2020
Class X 88.4%

Achievement

Problem Solving and Competitive Programming 2023 – Present

- Solved **900+ Data Structures and Algorithms problems**
- Achieved **Knight badge** on LeetCode with rating of **1860+**
- Participated in **30+ weekly and biweekly contests**
- Ranked **499** globally in LeetCode weekly contest 488
- Ranked in **top 4%** globally in multiple LeetCode contests

PROJECTS

Flight Reservation System | Spring Boot, Hibernate, MySQL, REST API, Maven

- Developed a secure flight reservation platform with user authentication, flight search, booking, and cancellation modules.
- Implemented JWT-based authentication and role-based authorization.
- Designed a normalized MySQL database and managed entity relationships using Spring Data JPA/Hibernate.
- Built RESTful APIs with validation, exception handling, and transaction management for reliable booking operations.

HouseRent(SmartBridge)

- Tech: React.js, JavaScript, HTML, CSS, Bootstrap
- Led a team to develop a house rental web application for property listing and booking
- Built responsive frontend using React and implemented search, filters, and property pages
- Coordinated with backend team for API integration and data handling
- Managed project tasks, GitHub repository, and team collaboration

Job Application Portal

- Developed the frontend of a Job Application Portal allowing users to browse jobs, view job details, and apply through an online form
- Implemented responsive UI using CSS Flexbox/Grid for mobile and desktop compatibility
- Improved user experience with form validation and dynamic UI updates.

SKILLS

Languages : Java, JavaScript, HTML/CSS, MySQL
