Summary

Computer Science undergraduate driven by a deep enthusiasm for programming and a constant desire to grow. Brings a methodical mindset to complex problems and a firm attention to detail when writing code that is clean and built to last. Adapts readily to new technologies and holds a consistent standard for quality, collaboration, and clear communication across everything undertaken.

Skills

Languages: Java, JavaScript, SQL
Frameworks/Libraries: React.js, Express.js, Bootstrap
Technologies: Node.js, REST APIs
Databases: MongoDB
Tools: Git, GitHub, Postman
Core Concepts: Data Structures & Algorithms, Object Oriented Programming

Education

Lakshmi Narain College of Technology **2023 – 2027**
B.Tech in Computer Science Engineering *CGPA: 8.85*

Sagar Public School, Bhopal **2022 – 2023**
Higher Secondary (Class XII) *93.8%*

Experience

Software Development Intern **October 2025 – December 2025**
Infosys Springboard Virtual Internship *Tools Used: React.js, Node.js, Express.js, MongoDB*

- Built **HireHelper**, a full-stack on-demand task assistance platform with features including task posting, feed discovery, and real-time request handling.
- Contributed across the **full development stack** — from crafting RESTful APIs to building dynamic user-friendly interfaces.

Projects

HireGenie | *MongoDB, Express.js, React.js, Node.js*

* Developed an **AI-powered ATS-optimized resume builder** that dynamically tailors resumes to specific job roles, improving keyword alignment and shortlisting potential.
* Engineered a **job description parser** that extracts critical skills and requirements from job postings, automatically customizing resume content to match recruiter expectations.
* Built a real-time **ATS scoring engine** providing actionable feedback and optimization suggestions to enhance resume visibility in applicant tracking systems.

FitAI | *MongoDB, Express.js, React.js, Node.js*

* Built a **full-stack adaptive fitness platform** generating personalized workout and diet plans with a closed-loop coaching engine that evolves with user progress.
* Integrated **exercise demo videos** and **audio instructions in 11 Indian languages**, making fitness guidance accessible to a diverse, non-English speaking audience.
* Engineered a **Habit Intelligence Engine** and **Progressive Overload System** that auto-adjusts plan intensity.

Awards & Certifications

- **Full Stack Web Development – Udemy:** Completed a comprehensive course covering frontend and backend development using modern web technologies.
- **Best Innovation Award – AI Manthan Hackathon:** Recognized for outstanding innovation among competing teams at Acropolis Institute of Technology and Research.
- **Winner – Innomaker Product Showcase Hackathon:** Secured first place at the product showcase competition held at Scope Global Skills University.
