Supriya Ranjan

Web Developer

linkedin.com/in/ranjansupriya
github.com/Supriya-Ranjan

- DSA
- Java
- React
- Angular
- Spring Boot

Impact: Highly Driven Solutions Engineer having Internship experience, Areas of expertise **Angular, Angular Material, React, Bootstrap, Tailwind CSS, Spring Boot, Problem Solving** . And now I am **actively** looking for the position of SDE.

Experience

Software Engineer (Intern) **Nov 2024 — Current**
Volopay Bengaluru

- Developed dynamic web applications with React, leveraging API integration for data fetching using GET, POST, and PUT methods.
- Utilized React Router for navigation, implemented state management with Redux, and designed custom themes to improve user experience and performance.
- Integrated React Intersection Observer to optimize component rendering and improve application performance.

Software Engineer (Intern) **Feb 2024 — Oct 2024**
RebootLabs Remote

- Developed dynamic web applications with Angular, utilizing data fetching, filters, and backend API integration.
- Implemented routing, ngx library features, and custom themes to enhance user experience and performance.
- Created an admin panel with data visualization using Chart.js, improving decision-making tools.
- Collaborated with cross-functional teams to ensure seamless integration and application functionality.

Back-end Developer (Intern) **Jan 2024 — Feb 2024**
Brainwaves Leaning Library Remote

- Specializing in Spring Boot, building robust server-side applications for seamless learning experiences.
- Worked on email and mobile OTP verification and integrated payment gateways to enhance functionality.

Projects

Dashboard Angular 16 **Github (url)** **Jan 2024**

- Developed a dynamic dashboard using Angular and integrated Highcharts for data visualization.
- Implemented features for data analysis and performance monitoring.

E-Commerce Website **Github (url)** **May 2023 — June 2023**

- Crafted a User-Friendly Online Store: Designed and built an e-commerce website using HTML, CSS, and JavaScript ensuring a seamless shopping experience across various devices through a responsive layout.

Snake Game **Github (url)** **Feb 2023**

- Created a classic Snake game using HTML, CSS, and JavaScript.
- Developed game logic, user controls, and scoring system.
- Designed intuitive UI for responsive gameplay.

Skills

Languages: Java, Data Structure and Algorithm, Python, C, C++, HTML, CSS, JavaScript, Typescript, MySQL
Frameworks: React, Angular, Django, Spring Boot, Spring Framework
Library: Angular Material, Bootstrap, Tailwind CSS
Tools: Git, Github, Ms-word, Ms-excel, Ms-power point
Soft Skills: Time Management, Teamwork, Communication, Problem Solving, Leadership

Education

Bachelor of Technology, Computer Science & Engineering, GCE Gaya, GPA: 8.32/10.00 **Aug 2022 — jun 2025**

ACHIEVEMENTS

Coding Competition: Participated in coding competition in our college and got 2nd rank
ICPC: ICPC-2023 Participant
SIH: SIH-2023, SIH-2024 Participant
Appain AI: Participated in Appain AI Challange Conducted by IIT Madras
ByteVerse: Participated in Annual Hackathon Conducted by NIT Patna
Hackerrank Handle: supriya$_{r}anjan21$ 3 star in Java
Leetcode Handle: Supriyaranjan82 300+ Problem solved and participating in the contest on leetcode

- **I am a Tech Enthusiast YouTuber, make video of DSA and C++ on YouTube channel Upeducative**
