ANUSHKA SONKER

Bhopal, Madhya Pradesh | +91 7999125530 | Anushkasonker17@gmail.com | linkedin.com/in/anushka-sonker-286a9929a

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience building responsive web applications using React.js, JavaScript, HTML, and CSS. Developed multiple projects integrating REST APIs, state management, and databases such as MySQL and MongoDB. Strong foundation in Data Structures & Algorithms with 200+ coding problems solved. Passionate about creating clean, scalable, and user-friendly interfaces while continuously learning modern frontend technologies. Seeking a Frontend Developer Internship to contribute to real-world products and grow within a collaborative engineering team.

CORE COMPETENCIES

React.js • JavaScript (ES6+) • HTML5 • CSS3 • Responsive Web Design • Component-Based Architecture • State Management • REST API Integration • Cross-Browser Compatibility • Frontend Performance Optimization • Version Control • Web Accessibility • Agile Development • Debugging & Testing • Problem Solving

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Java, SQL

Frontend Frameworks & Libraries: React.js, React Hooks, Redux (basics), Bootstrap

Styling & Responsive Design: CSS3, Flexbox, CSS Grid, Media Queries, Mobile-First Design

API & Backend Integration: REST API Integration, Node.js, Express.js (basic), Postman

Databases: MySQL, MongoDB (for full-stack context and data-driven UI)

Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Postman, Linux, IntelliJ IDEA

Practices: Component Reusability, Cross-Browser Testing, Basic Web Accessibility (a11y), Agile/Scrum exposure

Soft Skills: Analytical Thinking, Attention to Detail, Communication, Team Collaboration, Time Management

EDUCATION

B.Tech in Computer Science Engineering — LNCT University, Bhopal Expected 2027

CGPA: 7.5 / 10

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Software Engineering, Statistics for AI/ML, Machine Learning Fundamentals, Computer Networks

PROJECTS

Online Student Management System — Frontend Lead (React.js, Node.js, MySQL)

- **Designed and ddeveloped** a responsive React.js application for managing student records, admissions, and academic data using reusable components and modern frontend practices..
- Integrated REST APIs to enable real-time CRUD operations with efficient state management and robust error handling..
- Implemented dynamic, mobile-friendly layouts using CSS3/Flexbox, and optimized data-fetching logic that improved page data-retrieval efficiency by 30%.

Expense Tracker Application — Personal Finance Analytics Tool (React.js, JavaScript, MongoDB)

- Developed an interactive single-page application in React.js for category-based income/expense logging with real-time UI updates.
- Designed and built real-time analytics dashboards visualize spending trends and support budgeting decisions.
- Focused on clean component structure and responsive design across devices.

AI-Powered Resume Screening System — NLP Data Pipeline with Web Interface

- Developed a responsive frontend interface for an AI-powered resume screening platform, allowing recruiters to efficiently review ranked candidate profiles
- Integrated the frontend with machine learning–based ranking APIs to display parsed and scored resumes through an intuitive dashboard..
- Contributed to reducing manual review effort through an intuitive UI layer.

CERTIFICATIONS & ACHIEVEMENTS

- Meta – Front-End Developer Professional CertificateSQL for Data Analysis
- Web Development Bootcamp (HTML, CSS, JavaScript, React.js)
- Solved 200+ Data Structures & Algorithms problems
- Data Analytic CISCO
- Oracle Database SQL Certified Associate
- Responsive Web Design – freeCodeCamp
